

Pace®

High Impact Floor Cleaning System with Microfiber Pads

An efficient, versatile cleaning tool that can be used in busy areas or to manage infection control.

Easy-to-Use

- ▶ Color-coded chemical bottles
- ▶ Uses less water, which reduces the slip/fall risk
- ▶ Spray nozzles ensure chemical goes on floors and not walls and furniture

Efficient

- ▶ Cleans twice as fast as mop and bucket
- ▶ Use up to 90% less water and chemicals

Ergonomic

- ▶ Lighter, easier to use
- ▶ Much more maneuverable than a traditional mop and bucket system

Versatile

- ▶ Use for damp, wet or disinfection and dry mopping
- ▶ Meets the needs of day porter, building service and infection control cleaning operations

Designed For

- ▶ Healthcare
- ▶ Food Service
- ▶ Education
- ▶ Retail
- ▶ BSC
- ▶ Government
- ▶ Lodging

Use Overview

Pace® Floor High Impact Cleaning System with Microfiber Pads can be used in a wide variety of customer sectors. Use as a damp porter tool for cleaning busy areas, productivity cleaning tool for a contract cleaners, and infection control tool in healthcare locations.

- ▶ Fill and place the color-coded chemical bottle on Pace® Floor Cleaning System.
- ▶ Attach a microfiber pad.
- ▶ Pressurize the bottle and clean.

Pad Removal and Laundering

- ▶ Simply remove the microfiber pad from the cleaning tool by pulling on the tag.
- ▶ Place in washing machine for easy cleaning.
- ▶ Refer to washing instructions for proper care.
- ▶ Pace® microfiber pads are guaranteed for up to 500 washes when laundering instructions are followed.
