

RAPTOR 1

Non-Caustic, Non-Butyl Degreaser

Your multi-purpose pressure washing cleaning solution!

Raptor I is a highly concentrated liquid detergent formulated with the highest quality penetrants and surfactants. This detergent was designed to promote rapid emulsification of dirt, grease, and oil without a strong caustic odor. Raptor 1 is perfect for cleaning outdoor areas at commercial food establishments that may be soiled with foot traffic or food waste. This product works best in steam cleaners and hot water pressure washers. Raptor 1 can also be used with cold water pressure washers when necessary and rinses free at any temperature.

DIRECTIONS FOR USE:

The optimum cleaning dilution for most surfaces is between 1:30 and 1:79. When cleaning with pressure washers or steam cleaners, set the metering valve at desired dilution rate, and apply cleaning solution from the bottom up on a dry surface. Always detail clean from the bottom up and rinse from the top down. Do not use on any painted surfaces at concentrations of less than 1:15. Do not allow to dry on surfaces. Always rinse thoroughly.
